NON-STICK, SILICONIZED GRILL BAGS

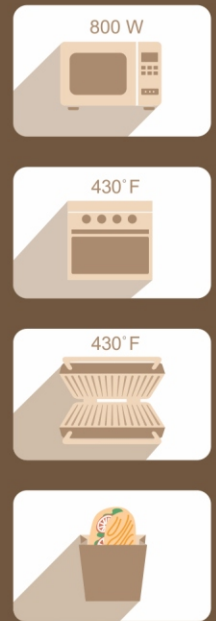

WHY GRILL BAGS?

- High quality:** inner pocket is silicone treated grease proof paper.
- Safety:** Made from virgin wood pulp, cellulose fiber without chemical additives - **NO QUILON**.
- Low-fat:** siliconized surface so no butter or oil is needed to keep food from sticking.
- Efficiency & Hygiene:** grill surface is kept clean since the food does not touch the grill while cooking.
- Speed:** customers can be served faster-no need to scrub the grill between servings.
- Frost and heat resistant:** from -31 °F up to 430 °F.
- Convenient:** Heat sandwiches, kebabs, paninis, burgers or pizza in the bag AND hand it over to the customer-food could be eaten directly from the bag without burning your hands!
- Complies with main food and hygienic regulations.**
- Environmentally friendly, compostable, biodegradable.**
- Suitable for Private and Professional kitchens.**
